

Resume

MIGUEL ANGEL MORA MÁRQUEZ

(JULY 22, 1976)

IT DIRECTOR / CTO

EXECUTIVE SUMMARY

Professional with over 25 years of experience in the development and implementation of customized software solutions. Founder and successful leader of three companies dedicated to the technological field, specialized in process automation for a wide range of sectors, including factories, logistics, imports, restaurant groups and retail.

Expert in the analysis and planning of technological solutions that optimize decision making through detailed information and complex reports generated automatically. Extensive proficiency in a variety of programming languages, as well as the development of a complete ERP with multiple modules ranging from customer and supplier management to billing and security.

With outstanding leadership skills, I effectively guide work teams, strategically distribute tasks and constantly seek process optimization. My focus on continuous training and my ability to impart knowledge in mathematics and technology at any level, demonstrates my commitment to constant learning and development.

Technical versatility, focus on operational efficiency and ability to adapt quickly to new technologies and platforms. Seeking a leadership role as a “**Chief Technology Officer or Operations Officer**” in an established corporate environment.
